Around the Police Station

After Judge Andrade had overruled the objection of Judge Humphreys against City Attorney Cathcart, appearing as counsel to defend Deputy Sheriff Rose, Chief of Detectives Kallakiela and Assistant Chief Medeiros, in the case brought by John Borges for false imprisonment, Judge Humphreys withdrew the case in the District Court and immediately brought the suit anew in the Circuit Court. Rather than fight out the technicality of City Attorney Cathcart's appearance for defendants in a misdemeanor case, in the police court, and rather than find the case subjected to unnecessary delays there, Judge Humphreys decided to carry the case originally into the Circuit Court.

When the case was called yesterday afternoon, Judge Humphreys made his objection to City Attorney Cathcart defending. The defendants were not on record thus far in the case as public officers. Cathcart argued in his own behalf and cited the case when he had defended County Attorney Donthitt and Detective Lake in the old Peacock case, and said it was a parallel case.

There was a time when City Attorney Cathcart did not feel that it was his duty to defend police officers, especially of the last administration.

Siemens Case Recalled.

A cable dispatch yesterday afternoon from San Francisco giving information of the failure of the bank of Kimon Ginko, recalls the tragedy that occurred within its doors a couple of years ago, when John Siemens of Hilo was found to be implicated in a murderous assault in the bank. Siemens for this and other crimes paid the forfeit with his life on the gallows.

"Blind Pigger" Pleads Guilty.

Okayama, arrested Sunday morning at his place of business on King street, near Keesumoku, for selling liquor without a license, pleaded guilty in police court yesterday, and was fined

\$100 and costs. The arrest was made by License Inspector Fennell. M. de Ponte, arrested Saturday night for selling liquor without a license, has decided to fight the case, and secured a postponement until today.

Got Jail Sentence.

J. McCannon, who has a penchant for gaining his livelihood by asking other people for the cash to do so, was given a fifteen-day jail sentence yesterday in police court. Kaloha, a Hawaiian woman, who is an oldtimer in police-court annals for drunkenness, was sent to prison for thirty days.

Wah Quon was remanded to the Juvenile Court by Judge Andrade. The Juvenile Court was fully organized last Saturday, Circuit Judge Lindsay having this division of work in charge.

Remnant sale at Whitney & Marsh's on Thursday next.

Mock Tempest on West Coast

Denver Republican.

The attitude of a few more or less irresponsible persons in California and the ridiculous outburst in the Nevada legislature in opposition to the alleged industrial invasion by Japanese has attracted from the country in general far more attention than it deserves.

The fact is that there has been no menace whatever to white supremacy in California or on any other part of the Pacific slope by the presence of Japanese in that section. In the whole state of California there are but 75,000 Japanese, and the tendency is for this number to decrease rather than to increase. It is absurd to say that so small a number distributed throughout the state can be the slightest menace to white industrial and business control.

It is the old story of the sand-lotters who made such an outcry against Chinese immigration and stirred up the whole nation. It was represented at that time that Chinese immigration threatened to cripple if not actually to destroy white civilization on the Pacific coast. But what most impressed a visitor to San Francisco before the fire was the presence of "Chinatown" in the very heart of the city, together with the fact that it was distinctly the greatest show feature of the town. That San Francisco people do not look upon the Chinese as a menace is confirmed by the re-establishment of the Chinese quarter in the same locality in the restored city.

The outcry against the Chinese was almost altogether a stepping stone to political preferment, and that is what certain persons are trying to make out of the agitation against the Japanese.

In a growing state like California, the labor of the comparatively few Japanese in the country is a help and not a detriment, much less a menace. The number departing from the United States exceeds the arrivals but even if this were not the case, the number entering the country would undoubtedly fall far short of the demand for laborers on the coast.

The character of the movement for legislation antagonistic to the Japanese is further most clearly indicated by the action of the legislature of Nevada, a state which is controlled in a large measure by a class of men who stir up trouble wherever they show themselves, of which Colorado had an illustration in Cripple Creek and Telluride a few years ago. Nevada can talk bravely about war, but as a matter of fact the entire population of the state could be concealed in the sagebrush if a hostile Japanese invasion were to take place.

A Brother to the Direct Primary

New York Sun.

Those New York Republicans who love to sit at the feet of Oregon and meditate on the virtues of direct primaries will not confine their love, we presume, to these alone. Oregon has other beauties for the reformer, additional means of stripping representative government of its adjective.

For instance, take the Oregon recall amendment adopted last June:

"Every public officer in Oregon is subject, as herein provided, to recall by the legal voters of the State or of the electoral district from which he is elected. There may be required 25 per cent, but not more, of the number of electors who voted in his district at the preceding election for justice of the supreme court to file their petition demanding his recall by the people. They shall set forth in said petition the reasons for said demand. If he shall offer his resignation, it shall be accepted and take effect on the day it is offered, and the vacancy shall be filled as provided by law."

In the case of a member of the legislature the recall petition can be circulated and filed five days after the session begins. In the case of other officers it can't be set to work until six months after they have taken the oath of office. We submit that this is a mistake. "The people" should have full control of their servants at all times, nor should these be allowed to have six months in which to give satisfaction or dissatisfaction. Recall before election is a dream, perhaps, but toward this the hopes of good men should be bent.

Meanwhile, observe that if the recalled doesn't resign—as he will if he has any bowels—within five days after the filing of the petition, a special election shall be held within twenty days to determine whether he or somebody else shall be elected for the rest of the term. On the ballots are to be printed in not more than 200 words the reasons for his recall, and he has the same amount of space to justify himself in. This requirement of brevity is the best thing in the amendment. The recalled keeps his job till the result of the special election is known.

A second recall can not be had until the costs of the first recall election have been paid by the petitioners for a second. This seems a cruelty, an intentional discouragement of "the people." We don't hold up the amendment as perfect. Daily recalls would be nearer the mark. Our purpose is merely to invite admiration to another great popular principle.

DEKORATO

A hygienic, durable wall finish in the form of a dry powder; ready for instant use after the addition of COLD WATER.

It never fades or rubs off, and always gives perfect satisfaction. The most superior Calcimine on the market. Easiest and best to apply to any wall.

Relief From Headache Is Yours If You Want It

You have only to get a box of Stearns' Headache Wafers at your chemist's and take one of the little tasteless wafers.

This is the most popular headache cure in the world and has been sold for almost twenty years; the only reason that so many people buy it over and over is that it does what it should—cures headache promptly, safely, pleasantly.

No one needs to suffer from headache when

Stearns' Headache Wafers

are at hand. It is well to keep a box in the house all the time, for headaches always come without warning. This will drive them away as quickly as they come.

Stearns' Headache Wafers are so much better than others that it will pay to insist on having STEARNS' and no other.
